March 2024

Leasing your next scooter or powered wheelchair

We are Motability Operations Ltd, a company authorised and regulated by the Financial Conduct Authority.
All Motability Scheme vehicles are leased to customers by Motability Operations Limited.

Continue to enjoy worry-free mobility

As your current lease is due to end in a few months, now is a good time to start thinking about your next lease with us.

Have your needs changed?

The Motability Scheme provides a range of transportable, foldable, pavement and road-legal scooters, plus a wide choice of powered wheelchairs. So if your needs have changed, we're sure we will have a product that may be more suited to you now.

Remember, only the person in receipt of the allowance can use the scooter or powered wheelchair. It should not be used, for example, by your partner or spouse.

If a scooter or powered wheelchair no longer meets your needs, the Scheme also provides a huge range of cars and Wheelchair Accessible Vehicles, all with the same all-inclusive lease package that you enjoy today.

You can find out more about all of the Motability Scheme products at **[motability.co.uk](https://www.motability.co.uk)**

We've got you covered

Just like today, your next lease will be all-inclusive for the next three years.

Payment is organised for you

We arrange for the relevant amount of your allowance to be paid directly to us every four weeks.

As most products cost less than your weekly allowance, you keep the remainder to spend however you choose.

£100 End of Contract Payment

At the end of your lease you'll need to return your product to your dealer. Once they've confirmed it's been returned, you'll be eligible for a £100 End of Contract Payment. You can get this by bank transfer in just a few days with a Motability Scheme online account (see page 5). Please note if you requested early payment of the End of Contract Payment due to the COVID-19 situation, you will not get this again.

£100 New Product Payment

When you collect your next product you'll also qualify for a £100 New Product Payment. If you've updated your bank details in your Motability Scheme online account, you'll get this payment by bank transfer within a few days of collecting your new scooter or powered wheelchair. Please note this payment is only available once per customer. You can find out more about the New Product Payment at [motability.co.uk](https://www.motability.co.uk)

All of these essentials are included in the price you pay

General servicing and maintenance

Breakdown recovery

Tyre replacement

Battery replacement

Insurance cover

Motability Scheme online account to flexibly manage your lease

Weatherproof cover or other optional extra

Motability Scheme online account

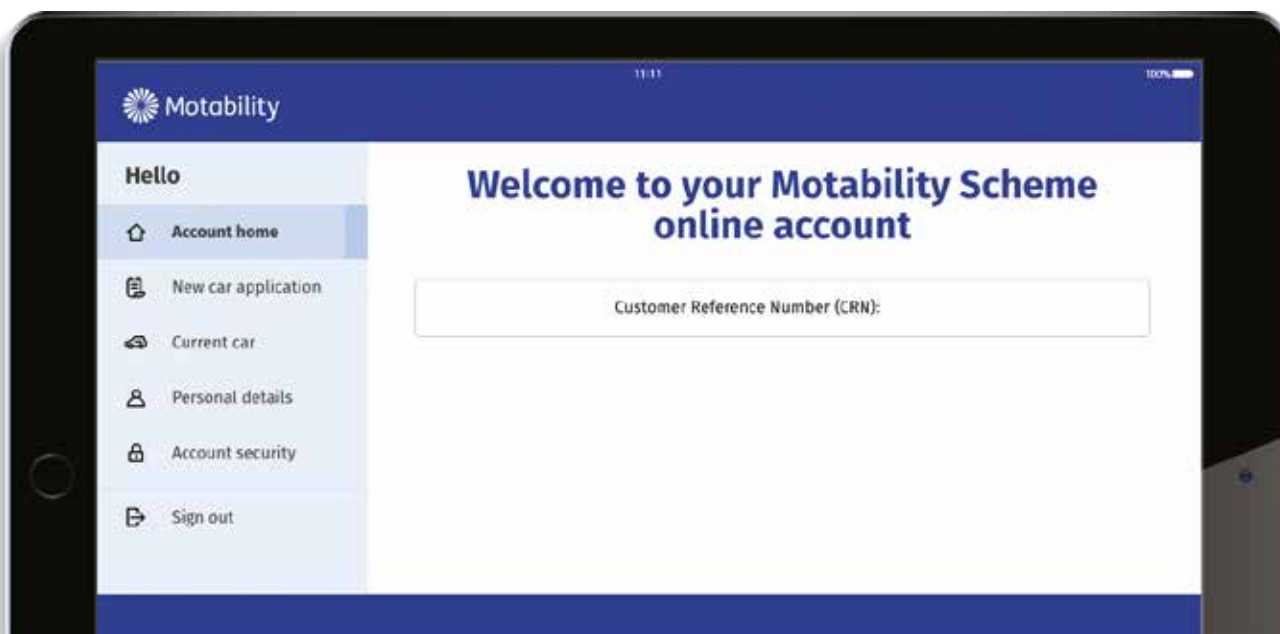

If you have an online account, the following great benefits will help you as you approach the end of your lease:

- See your lease end date. You can order your next scooter or powered wheelchair three months before this date.
- Find your dealer's contact details – useful if you need to arrange any repairs before you hand your scooter or powered wheelchair back.
- Check or update your payment method for receiving your End of Contract Payment and New Product Payment. Save your bank details in your online account to get these by bank transfer in just a few days, rather than a few weeks if getting a cheque.
- Access the Direct Line Motability (DLM) insurance portal, where you can download your insurance documents and raise a new claim.
- Easily check and update personal information such as your address, phone number and email address, giving you peace of mind that everything is up to date.

We're also continuously adding new features to the online account, so keep signing-in to see what's new.

The right choice for you now

Here's a reminder of the types of scooters and powered wheelchairs available through the Scheme, plus a handy list of things to consider before visiting a dealer.

Scooters

A scooter is probably the right choice if you can travel relatively independently, get on and off easily without assistance and are able to use a steering column with both hands. We offer different types of scooter, from small, easy to transport models to sturdier, road-legal models that are good for longer distances.

Powered wheelchairs

A powered wheelchair may be the right choice if you need mobility assistance throughout the day or around your home, if you don't feel confident getting on or off seats, or if you can only operate joystick controls.

Scooter reviews

We've reviewed some of the most popular products in each category. Read the reviews at [motability.co.uk/scooterreviews](https://www.motability.co.uk/scooterreviews)

→ Getting on and off your product

How have you found accessing your current product? Try different models to find out which ones feel most comfortable.

→ Need a little extra power?

Have you found getting up hills a struggle on your current scooter, or your battery does not last as long as you need? It might be worth looking at something with extra power this time.

→ Will you use your next product at home?

Perhaps consider something that's lighter with a tighter turning circle if you'll be using it regularly around your house.

→ Making your trips more comfortable

Do you want to make longer journeys on your new product? Think about the comfort of the seat, and how far it can travel on a fully charged battery.

→ Do you carry your product in your car?

Many smaller scooters can be dismantled or folded for transportation. You'll need to test getting the scooter in and out of the vehicle if you want to carry it in a car.

→ Getting a powered wheelchair

If your needs have changed and you now need to stay in your wheelchair through the day, have restricted mobility in your hands, require mobility assistance around the home or are unable to transfer on and off a seat easily, perhaps a powered wheelchair would benefit you.

→ Other mobility options

We also lease Wheelchair Accessible Vehicles and cars, along with a host of adaptations to help make either travelling or driving easier and more comfortable. Visit [motability.co.uk](https://www.motability.co.uk) to see what's available.

→ Leaving the Scheme

If at the end of this lease, you decide that the Motability Scheme is no longer right for you, all you need to do is call your dealer to arrange collection of your product.

The dealer of your choice is ready to help

How has your product worked for you over the past three years and what, if anything, would you change? Your dealer will provide all the help you need to find a product that may be better suited to your needs now and over the next three years.

This includes a home demonstration to ensure that any product you're considering can be easily stored and charged at your home.

If you choose to lease another scooter or powered wheelchair through the Scheme, your dealer will organise it so you can keep your current product until your new one is ready to collect.

As before, the dealer you choose will also provide the servicing, maintenance and repairs throughout your lease.

How to find a dealer

You can place your order with your current dealer, but you can also visit other dealers who may have an alternative range of products on display. Find your nearest dealer online at [motability.co.uk/scooter](https://www.motability.co.uk/scooter)

Test drives

Even if you're considering getting the same product again, it's important to remember that models can change. So you can see what options are best for you now, we recommend test driving new products and trying more than one model.

Ordering is as easy as ever

Your dealer will take care of the ordering process for you. On delivery, your dealer will take you through a full demonstration and test drive to make sure you're comfortable with your new product. If you have any questions your dealer will be more than happy to help.

You'll also get full details of your lease and insurance cover, as well as a handbook to support you through your lease.

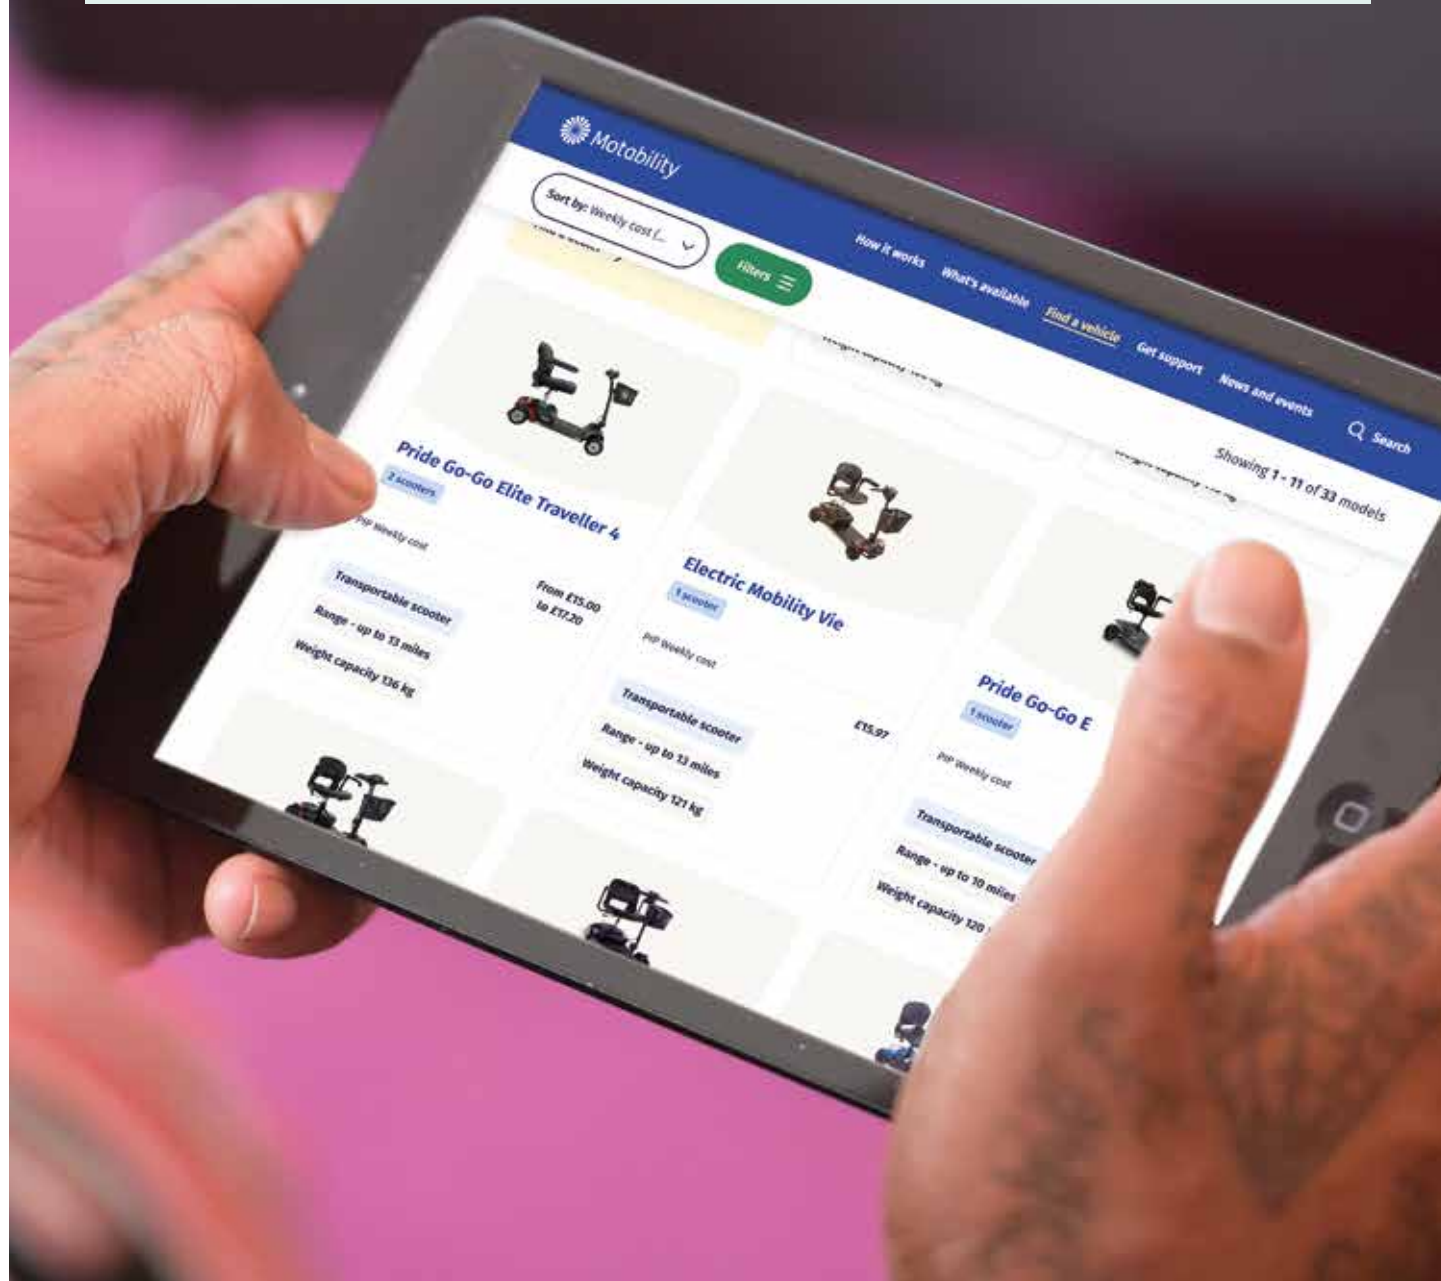

Search over 500 products on our website

Before talking to a dealer, bring yourself up to date with our latest range and use our search tools to browse over 500 products. Visit [motability.co.uk/searchscooters](https://www.motability.co.uk/searchscooters)

- **Scooter and powered wheelchair searches:** To make it easier for you to tailor your search to your needs, we have separate search tools for scooters and powered wheelchairs.
- **If you know the type of product you need:** Start your search by choosing this category. For example, you could start by searching transportable or foldable scooters.

→ **If you're not sure which category you need:** Or, if you want to further narrow your choice, fill out the remaining search options with any specific requirements. For example, if you need a pavement scooter with a battery range up to 30 miles, suitable for a user weighing over 150kg, the tool will only show the suitable scooters.

→ **Products matching your search:** These are shown underneath the search tool. Click on a product to see more details.

Snapshot

Our prices are negotiated and updated every three months to provide you with the best offer. These prices are for orders placed between 1 January to 31 March 2024. All prices are the same across our dealership network, and the price when you apply is what you pay, even if it changes before you collect your product.

Here is just a small selection of some of the products available in each category. Your dealer has full details of all the products available or you can search the full range at [motability.co.uk/searchscooters](https://www.motability.co.uk/searchscooters)

Foldable scooters

Max weight capacity: 115kg
Max speed: 4mph
Max range*: 10 miles

→ Weekly rental: £28.87

You keep** £42.13 per week

*Max range is an estimation of the maximum distance possible on a full battery charge. Various factors including weight carried, terrain, and battery condition will affect this range. ** This is the amount of your higher rate mobility allowance which will continue to be paid to you by the DWP. This amount is based on the HRMC of DLA and ERM of PIP weekly allowance rate of £71.00 from April 2023 and the amount you keep will increase if the DWP makes any future allowance increases. Prices are correct at time of going to print and are subject to availability. The Lease Agreement is with Motability Operations Ltd.

Transportable scooters

These are made with a light frame and come apart to make them easier to store or transport.
